Director's Message

Dear Friends,

Greetings from Bosco Reach Out!

One of the best pictures I have come across, while visiting the project areas, is the picture of a mother with baby in her arms, smiling at each other to their hearts content. How wonderful it would be to see more of such in every project area of BRO. We constantly work to uplift the socio-economically marginalised people, by reaching out to them, and empowering them to think for themselves. We could help many people especially during this difficult period of pandemic.

During the second quarter of the reporting year, awareness creation on COVID-19 and vaccination was emphasised. Over 1500 cooked food package was distributed to the COVID patients who were home quarantine, within Guwahati. The five homes of Snehalaya, Guwahati received cartoons of biscuit and other food items.

Covid Emergency Relief of dry food ration distribution was distributed in and around Guwahati and other districts of Assam. In Chirang district at Malivita, a three months Crash Course of Coaching for Class X Student was concluded in April 2021. During which Parent-Teacher and Student Meeting was organised to discussed the overall progress of the students. COVID-19 awareness, prevention and vaccination programme was conducted with the involvement of ASHA and Anganwadi workers at the village level in Udalguri district. Farmers' training, demonstration and agriculture programmes continued amidst pandemic in Goalpara district. Over 10,000 pineapple suckers (*Ananas comosus*) were distributed to wadi beneficiaries at Malivita. During which piglets were also vaccinated. Community consultation training programme was organised at three villages of Udalguri district. Hand washing demonstration and awareness creation on timely vaccine was also incorporated to all the beneficiaries during the programme. Common Facility Centre for the artisan to display their produced has been completed in Goalpara district.

In East Garo Hills district, the first batch of unemployed youth successfully completed the training on gardening in April. In Kokrajhar district, intensive awareness on COVID-19 and vaccination was conducted under CARE Project. The District Administration collaborated in a big wag way and we are very grateful to them. Vitamins, medicines, hand sanitiser, face mask and face shield were distributed to the CARE children.

Let us continue to stand strong and tall with the community, fight with them and for them, to mitigate the cycle of poverty. With the community beside us and God Almighty we shall continue the work of upliftment and development.

Women Development through Awareness on Women Issues

On May 22, 2021 awareness on women's issues - empowerment, rights, violence, and nutrition under women's development was organized in Amlaiguri village, Sidli block, Chirang district of Assam. It was conducted under the 'Integrated Tribal Development Programme-BAGAN Project' implemented at Chirang district and supported by NABARD Assam. A total of 20 villagers attended the programme. The objective of the programme was to bring about the advancement, development and empowerment of women. Smt. Swarnabati Narzary, ASHA worker from Mini PHC, Amteka and Mr. Jual Mochahary, Field staff of BRO were the resource persons of the programme.

The resource person focused and created an awareness on vaccination against COVID-19 to eradicate vaccine hesitancy among rural people. It is a complex challenge for a fruitful vaccination drive. The vaccination drive in India began on January 16, 2021. Vaccine hesitancy is one of the challenges among the rural population.

BRO network with ASHA workers and Anganwadi workers at the village level to create awareness and reduce vaccine hesitancy at this need of the hour. They are trusted local figures, who have considerable influence over the health care decisions of the community.

Plantation Programme at Common Facility Centre Campus

Bosco Reach Out has been implementing the Scheme of Fund for Regeneration of Traditional Industries (SFURTI) project in Goalpara district of Assam with 250 artisans grouped as Balijana Dress Making Cluster. CFC is a tangible “assets” with Common Production/Processing Centre (for balancing/correcting/ improving production line that cannot be undertaken by individual units), Design Centres, Dyeing Centre, Testing Facilities, Training Centre, Marketing Display/Selling Centre, Common Logistics Centre, and Common Raw Material Bank/Sales Depot.

On June 18, 2021 Special Purpose Vehicle (SPV) members and Self Help Group (SHG) members of Balijana Dress Making Cluster organised a plantation programme at Common Facility Centre (CFC) Campus, Balijana Block, Goalpara district of Assam. It was aimed to observe the plantation week June 15th to 22nd, 2021 declared by the Balijana Forest Beat Office.

At 11.00 am, around 60 people from the neighbouring villages participated the plantation programme. It was a rainy day and a perfect for plantation. Many of the people brought necessary gardening tools and flower sapling from their home. The flower saplings included rose, hibiscus, rajanigandha, and patbahar. Sapling of trees was provided by Anchalik Forest Office, Balijana. Tree and flower sapling were planted around CFC Campus. Some of planted tree saplings consisted of babul, meghany, agaru, elephant apple (aou tenga), neem, and areca nut. At the end, the CFC campus was properly fenced with bamboo to enhance the plant growth. After the plantation work at 1.30 pm, the whole community had a light refreshment.

Holistic Development through BAPAN Project

Bosco Reach Out through the project 'Integrated Tribal Development Programme for Sidli Block of Chirang District, Assam' aimed to bring holistic development in Chirang district with the support of NABARD Assam. The activities include horticulture (establishment of orchards and maintenance), soil conservation and water resource development, livelihood (piggery unit), community health, women's development (creating awareness on women's issues - empowerment, rights, violence, nutrition, and eradication of vaccine hesitancy), training and capacity building (farmers training/demonstration), and community school (other intervention).

On April 21, 2021 Parent-Teacher and Student Meeting was organised at Malivita High School VCDC – Malivita in Chirang district. There were 4 teachers, 16 parents, and 26 students at the meeting. It was organised to discuss an overview of students' academic progress, coping skills, conduct in class, and social skills with peers. Areas of improvement for students and parents in making those changes was also emphasised. It also focused on the issues of student dropout after 10th standard as it is very common in rural areas. Mr. A. R. Deury, DDM, NABARD and Smt. Minku Das, Project Coordinator, BRO motivated the students and parents. Mr. Primal Narzary, Teacher, Malivita High School was the special invitee. He delivered a motivational speech on academic career of students and positive attitude of the parents toward education. He said that the outbreak of COVID-19 has affected everyone. It had a serious implications for mental health of the students, resulting in psychological problems - frustration, stress, and depression. The students are going through new experiences of spending time on online classes, self-study, absence of get together with classmates, and less physical activity. So, parents are the primary support to deal with this unprecedented situation.

BRO distributed 30 school bags among students who attended the 'Three Months Crash Course Coaching for Class X Student' from February to April 2021 during the meeting as an encouragement.

BAGAN Project: Awareness on COVID-19 Prevention and Vaccination Importance

The second wave of coronavirus infection has reached to the rural villagers. There has been a panic situation among them due lack of awareness. False rumours to the side effect of taking COVID vaccine has created fear. The villagers preferred to remain without vaccination.

On May 21, 2021 Bosco Reach Out under the 'Integrated Tribal Development Programme-BAGAN Project' conducted awareness on COVID-19 prevention and importance of its vaccination at Indrapur village, Sidli block, Chirang District of Assam. It was organized in collaboration with ASHA workers from Mini Public Health Centre, Amteka, Chirang district. A total of 25 villagers attended the awareness programme. The resource persons were Smt. Nemshri Mochahary and Smt. Swarnabati Narzary, ASHA workers. The ASHA workers explained the common symptoms of COVID-19 i.e. fever, tiredness, dry cough, runny nose, sore throat, and diarrhoea. The most effective way of protecting oneself by frequently cleaning hands with alcohol-based hand rub or washing with soap and water, wearing mask (facial cover) when going out, and maintaining social distancing at least 1 meter (3 feet) from others. If people test positive, one should be isolated. The people in close contact within 2 days before they developed symptoms should be sought out, and tested too if they show symptoms of COVID19. There is no specific treatment for disease caused by a novel coronavirus. However, many of the symptoms can be treated based on the patient's clinical condition.

During the programme, the ASHA workers carried out thermal screening of the participants to check their body temperature, which might indicate the COVID-19 infection. The participants were encouraged to follow the COVID protocols. As a sign of good practices gesture reusable cotton masks and hand sanitizers were distributed among participants.

CARE Project: Awareness Programme on Covid-19 and Vaccination

Bosco Reach Out through Children at Risk Education (CARE) Project created awareness on Covid-19 and vaccination in its Project implementing areas, Kokrajhar district of Assam. The CARE project, with 34 CARE Centres is supported by Childaid Network Germany. During the second wave of Covid-19 Pandemic, many villagers were affected. They were not aware of the Novel Virus. So, educating the elderly villagers became relevant and thus prevent the spread of the virus, especially in the remote villages of the project area.

On May 31, 2021 the CARE Staff conducted awareness on Covid-19 and vaccination for the people of Bamunijhora at Bamunijhora (Saralpara) CARE School. There were 24 participants (followed SOP), all of them were the parents of the CARE Students. Mr. Kesab Ekka, Cluster Coordinator of CARE project, explained the basic of Covid-19, when

and where it started, how it spreads and its impact on the infected person, and its prevention. He said that the Government has issued guidelines and SOPs (Standard Operating Procedures) to prevent the spread of Corona virus. Some of the most important steps to prevent the spread of Corona virus: wearing a mask while going out, washing hands frequently, maintaining social distance in the crowd, in case of any symptoms of the virus isolate yourself, and consult a Doctor immediately. He mentioned some of the most common Symptoms of Corona Virus like fever, dry cough, and tiredness. Less common symptoms like aches and pains, sore throat, diarrhoea, headache, and loss of taste and smell. Mr. Daud Soren, Cluster Coordinator of CARE project took a session on the importance of Covid-19 Vaccination. The two Indian vaccine COVAXIN and COVISHIELD are safe. The vaccine increases our immunity and antibodies to fight back the corona virus. Vaccination is done at Shakti Ashram near Pakragram, Kokrajhar district. Mr. Pabitra Mashahary, Cluster Incharge of CARE project led the question answer sessions. The participants expressed their gratefulness in creating awareness which will save their lives.

Similarly, on June 14, 15 and 16, 2021 the staff conducted the awareness programme on Covid-19 and Vaccination at New Gorsingpara, Dhorompur, Athiabari CARE Centres respectively. There were 70 participants (followed SOP) who attended the programme. All

CARE Project: Awareness on Covid-19 and Vaccination with Kokrajhar District Administration.

On June 19, 2021 Bosco Reach Out along with the Kokrajhar District Administration organised an awareness programme on Covid-19 and vaccination. There were 36 participants. It was conducted in the CARE (Children At Risk Education) centre of Ultapani, Kokrajhar district. It was organized to make people aware of corona virus and the vaccine as it has become very important and necessary for everyone. Mr. Kesab Ekka, CARE Teacher welcomed and thanked everyone on behalf of BRO.

Dr. R C Debnath, DSO cum SDO Kokrajhar mentioned the nature of the virus changing its form which is dangerous. Many people had lost their lives. He requested everyone, all above 18 years of age to get vaccine to reduce the occurrence of death. Mr. Uttam Brahma, DPM NRHM Kokrajhar directed the gathering with a few PHC centres, like Ultapani PHC in the district where vaccines without online registration. Every Friday vaccination is done without any cost at Ultapani PHC. He also assured them of arranging for vaccination at their village if there are more than 50 people ready for vaccination. Mr. Jahangir Hussain, DPO SSA Kokrajhar encouraged the leaders and village headmen to take vaccine first and lead their people. He informed that around 90 people from Gorkha communities took the 1st dose at Ultapani PHC and they are fine. Dr. Dipankar, PHC Ultapani Kokrajhar welcomed everyone to come and take vaccine at Ultapani PHC on every Friday. He congratulates Mr. Amrit Kr. Rai, the first person who took the 1st dose vaccine at Ultapani PHC and present amidst them. Mr. Shyam Tudu, Advocate Kokrajhar presented the present scenario of corona pandemic and request everyone to take vaccine as soon as possible. Fr. Ignatius Gari, Vice Principle DBS Amguri clarify the vaccination rumours spreading among the villagers. He said that we must follow Government guidelines and take the vaccination. Now the government is providing free vaccine without any cost, we just need to carry few documents in order to receive the vaccine.

At the end of the programme, the village headman expressed word of gratitude. He thanked Kokrajhar District Administration personnel and BRO staff for awareness programme. He said that we are aware of the vaccine and why it is necessary. We promise to take vaccine as early as possible.

Empowering Community - Based Institutions

On June 24, 28 and 29, 2021 Bosco Reach Out conducted three Community Consultation Training in three villages of Balagaon (Udalguri block), Louisgaon (Udalguri block) and Khagrabil (Orang block) respectively in Udalguri district. It was carried out under the Voluntary Health Association of India, Delhi (funded by UNCIEF) supported project 'Empowering Community-Based Institutions to Increase Vaccine Confidence and Routine Immunization Demand, and Prevention of COVID-19'. A total of 54 people (CBOs/influencer, the village leader, religious leader, village members, ASHA, and ANM) attended the training. The community Based Organisations (CBOs) and Influencers helped BRO staff in organising the trainings. Mr. Mrinal Sarmah, District Coordinator of BRO discussed the various issues of the community, including the low rate of immunisation among children. He explained the importance of immunizations, routine immunization, and how to overcome at community level. The importance of baby and mother nutritional food awareness was also created. He said that CBOs/Influencer plays an important role in creating awareness on corona virus, its preventive measures, and COVID-19 Standard Operating Procedure. Getting vaccinated is one of the most effective measures in controlling the mortality rate due to COVID-19.

During the community consultation programme, the District Coordinator of BRO conducted a demonstration on hand washing. The CBOs/influencer in turn will mobilize it for their respective community and demonstrate to them.

BRO staff based at the field made a regular household visits. They visited 187 houses during the month of June 2021. This household visits helped in building good rapport with the people. It became easier to convince the families for timely vaccine. They also distributed Information Education Communication

(IEC) materials on immunization. The CBOs/influencers also supported in explaining the IEC material content. Now, the families have understood better the importance of vaccine.

Children's Sponsorship Programme

The Children's Sponsorship Programme Centres are closed since April 2021 till further information as per the Government SOP to curb the spread of COVID-19. The happiness of the students coming to schools and colleges came to an end. Only for a few exceptions, all the hostellers and boarders are at home. Each centre in charge keeps close contact with the child welfare. All the students are keeping healthy and strong and as reported and doing their homework of studying. Eagerly waiting to return to the institution. Everyone is hoping for the good time, declaration of the government for normalcy of the situation and resume normal life.

Sr. Agatha Shadap FMA, Rambrai Centre In-charge said, 'On April 7, 2021 the inaugural function of the school new scholastic year was held with more than 1500 students. This year, there are 43 children in the boarding. On April 20, the smaller children returned home as per the Government protocol. The

rest remained in the boarding for offline notes and tuition'. Fr. Bhaskar Raj Chinthamalla SDB, Doomni Centre In-charge reported, 'On April 19, 2021 our new academic session was inaugurated as the life begins its normalcy. But Covid struck again and the nation call to shut down. Online Classes have been conducted. The centre school with three other fidel schools with approximately 1100 students. Bosco boy's hostel has 40 children while St. Mary's hostel Run by MSMHC nuns has 16 girls. We are very grateful'. Fr. Uttam Molsom, Rongjeng Centre In- charge said, 'We just had classes for about a month. But was again closed for conducting the Matriculation Exam for 900 students followed by COVID lockdown'. Fr. Augustine Karottupuram SDB, Rector and Parish Priest Damra said, 'Our school and boarding started in April. This year, Boys Boarding have 42 children and the girls 15 children. 20 Children left the boarding and will attend online classes. We are very grateful'.

All the Centre In-charges expressed their deep sense of gratitude to their benefactors through Fratelli Dimenticati for their untiring efforts and readiness to forgo their own needs in order to support our children and our boarding at all time.

Farmer Producer Organization

Nabajyoti FPO from Kachubari and Twelve villages FPO members from Mariampur are two FPO functioning actively under NABARD, Assam supported project Promotion of Farmer Producer Organization. During the 2nd wave of COVID-19 pandemic the FPO members (also Goalpara NABARD-TDF wadi beneficiaries) are busy harvesting their rubber latex and making Rubber sheet from their wadi.

Nabajyoti FPO members cultivated banana. In April 2021, they aggregated 350 bunches of mature Malbhog variety banana for marketing. They sold it at the rate of Rs. 350.00 per bunch earning a total business of Rs. 1,22,500.00. They were busy with activities - harvesting latex, making rubber sheet, growing summer vegetables like cowpea, cucumber, ladies fingers and chilli. Due to restricted movement, they are selling their products in village market, Dhupdhora market and to local business man (who used to collect agriculture products from the field) during the period of April- June 2021.

On June 07, 2021 Buyer and Seller Meeting was organised at Mariampur for Rubber sheet produced by two FPOs namely Nabajyoti FPO and Twelve Villages FPO. A total of 20 FPO members of both FPOs attended the meeting. The buyer is Mr. Abdul Wahab from Ajgar Social Circle, Goalpara. He explained the quality of rubber sheet and marketing. The natural rubber processing standards in the country are in accordance with its domestic requirements. The processing processes need to be standardised, which of course can be accomplished through FPOs. The situation also calls for empowering of smallholders to face the challenges of the market needs.

Livelihood Intervention in Chirang District

Bosco Reach Out under the project 'Integrated Tribal Development Programme for Sidli block of Chirang district, Assam' set up 26 low cost piggery units in different project villages with the concept of two sows and one boar model. The pig sty is constructed with locally available bamboo, wood and cement post. The floor is made concrete by using cement, brick and sand. The sty site maintains well-drained, elevated but fairly level, adequate ventilation, adequate supply of drinking water nearby, and protected from strong winds.

On May 10, 2021 the second batch of 24 piglets were vaccinated against foot and mouth disease (FMD) and swine flu along with an iron supplement injection. While the first batch of 45 piglets were vaccinated last quarter. With Improved Potency, Inactivated, wild-type foot-and-mouth disease virus (FMDV) vaccines are currently used to control FMD. Vaccination in pigs is short-lived, lasting only about six months. Livestock rearing, piggery has been encouraged amidst the Wadi beneficiaries. Piggery is a promising source of generating income activity. It will bring sustainable, holistic development among wadi beneficiaries.

Pineapple Suckers Distribution at Chirang District

On May 4 and 5, 2021 Bosco Reach Out distributed 10,000 pineapple suckers (*Ananas comosus*) to 100 Wadi beneficiaries at Malivita of Chirang district. It was carried out under the project 'Integrated Tribal development programme for Sidli block of Chirang district, Assam' supported by NABARD Assam. The pineapple suckers will be cultivated as intercrop in wadies along with main crop such as Areca nut and orange. Intercropping is an all-encompassing term for the practice of growing two or more crops in close proximity: in the same row or bed, or in rows or strips that are close enough for biological interaction. The major benefits of intercropping include increasing the rate of crop production, with the advantage of simultaneously decreasing the risk of total crop reduction, and controlling weeds.

The distribution and monitoring of all the field activities are carried out by its staff based at the field Mr. Jion Narzary, Project Field Coordinator of BRO assisted by Mr. Jual Muchahary and Mr. Kanin Basumatary, Field Project Extension Workers of BRO, and Mr. Pribal Narzary, Field Community Mobiliser of BRO. The beneficiaries are happy with the system of growing their wadies. Intercropping practice helps them to earn an extra income while waiting for the main crop.

Farmers Training and Demonstration

Three programmes on Farmers Training and Demonstration - Management practices for young horticulture plantation in four different villages of Banjutbari, No.2 Jomnaguri, Sonapur, and Mandarguri in Chirang district. It was organised under the 'Integrated Tribal Development Programme-BAGAN Project' implemented at Chirang district with the support of NABARD Assam. A total of 87 farmers attended the training. The objective of the programme was to build capacity of the farmers and improve their knowledge on scientific methods of horticulture plantation and management practices. Mr. Join Narzary, Project Field Coordinator of BRO was the resource person.

The resource person discussed the importance of recommended layout for the multiple horticulture crop orchard and package of practices of orange and Areca nut to improve the farmers' knowledge on scientific method of horticulture plantation and management practices, method of intercultural operation – weeding, mulching, plant protection for young plantation, to promote intercropping for optimum utilization and extra income, and to promote soil conservation methods and water resource development. He shared with them the land preparation, spacing, pit digging, manure application, secondary nursery bed and proper fencing specially use of green fencing. Planting method and layout of the wadi was demonstrated in details. Management practices, intercultural operations for young orchard and a method of pitcher drip irrigation were also covered. On field demonstration was also conducted in a farmer's field on method of application of manure and fertilizer, pitcher drip irrigation and identification of pest and diseases and their remedies.

Training on Gardening (Horticulture, Floriculture and Medicinal Plant)

Bosco Reach Out conducted Training on Gardening (Horticulture, Floriculture and Medicinal Plant) under the project 'Training on Promotion of Horticulture Activities and Skill Training in the Hill District of East Garo Hills, Mendal, Meghalaya – India' supported by Don Bosco Mondo, Germany. An inaugural programme was organised on February 17, 2021. Fr. Simplicius Kerketta, Director of Don Bosco Skill Training Centre, Mendal welcomed the 27 first batch students of unemployed youth and introduced the resource persons Mr. Prabhat KS and Mr. Salgira D Momin. He explained the importance of the training and encouraged them to learn efficiently. The training was for two months and five days. It had both theory and practical session. Green House and Poly House nursery with working shed was constructed. Seedling, sapling and grafting of varieties of horticulture crops (vegetables, floriculture, and medicinal plants) was used in raising the nursery.

Nursery activities include bed preparation, sapling collection, stone collection, stem cutting, compost collection, top soil collection, sand collection, flower/crops/medicinal/bonsai plantation, poly bag records maintenance, garden maintenance activity, horticulture crops drawing, and garden tools drawing. Mind-Map Learnings was in Your Garden, Business Development, Forest Garden, and Nursery Management. The Forest Trekking Activities on ATC, Joropara Hills includes adopt a tree, tree plantation drive on hills, tree hugging campaign, hills cleaning drive, forest trekking, forest food, bamboo cups, group site selection in hills for development of gardening projects, individual site selection in hills for development of gardening projects, tent space clearance, tree house site selection, kitchen base set up on hills, plantation drive on hills, and stream rejuvenation in the hills of ATC. Extra-curricular activities incorporated for the

students were Functional English, Communication skills, Personality Development, Interpersonal Relationship, Meditation, Relationship Training and Leadership Training. Remedial Courses include Social Education, Life Coping Skills, Team Building, Computer Basics, Marketing Basics, Resume Building and Mock Interview.

A closing ceremony programme was organised on April 22, 2021. BRO Head Office personnel Mr. Prakash Borah, Consultant and Mr. Ezekiel Chawang, Project Coordinator were present at the programme. The successful 27 students were awarded with a training completion certificate. The students were very happy and expressed their sincere gratitude to the organisation for providing such useful training.

COVID-19 Relief Support

Bosco Reach Out had been extending a helping hand in minimising the sufferings of the people in different ways during the 2nd wave of covid pandemic. Thousands of people and families were devastated directly or indirectly due to this pandemic. BRO tried its best to provide people affected by corona virus and home quarantine with cooked food, dry ration, medicines, and hygiene kits. BRO Management and its volunteers with the support of many humanitarian organisations helped the distress people. It has been rightly said that we cannot help everyone, but everyone can definitely help someone.

BRO started its drive to help needy people from May, 2021. It initiated with the distribution of cooked food to the most vulnerable combatting COVID-19 positive in home quarantine. The service areas covered within 15 km radius from the head office Ulubari, Guwahati. Targeted mostly the poor section of the society really in need of food and nobody to help them out. More than 1500 cooked food was distributed in one month time.

On May 08, 2021 a total of 25 boxes of biscuit was distributed to all five homes of Snehalaya at Noonmati, Paltan bazaar, Beltola, Dhirenpara,

Betkuchi. The centre in-charge and 200 children residing in five Snehalaya homes were very happy to receive those packets and very grateful to DBNet, Delhi. On June 18, 2021 hygiene and personal care products were distributed to 65 needy individual beneficiaries at Mathuranagar, Down Town, Guwahati.

On June 30, 2021 BRO in collaboration with Bosco Net, New Delhi distributed Family Essential Kits containing dry food ration as covid emergency relief to selected 35 families at Tonybasti, Milandpur, Chandmari within Guwahati. The selected people belonged to daily wage labour/migrant workers, domestic workers, street vendors, and drivers. BRO personnel Fr. Jayaprakash Anthonimuthu, Executive Director, Mr. Ghanashyam Pathak, Senior Project Manager, Mr. Romeo D'monte, Project Coordinator and Ms. Catherina Kandulna, Sponsorship Coordinator were present at the distribution programme. Sincerely thanking all the organisation for their handholding support, the volunteers in the field for distribution, many well-wishers for their encouraging words, and the staff of BRO in the forefront of the work.

BAGAN Project - On Field Farmers Training and Demonstration
